

Subject: Provider
Leave Behind Narcan® Program

Associated Polices:

I. Purpose:

To authorize and describe procedures for Advanced Life Support (ALS) personnel, who are affiliated with North Coast EMS authorized ALS Providers, to distribute Narcan® kits to individuals at risk for experiencing or witnessing an opioid overdose.

II. Principles:

1. Opioid overdose is one of the leading causes of death in the United States.
2. Naloxone is a life-saving medication that reverses an opioid overdose by blocking the opioid receptor, reversing the toxic effects of the overdose, with minimal to no effect on an individual if opioids are not present in their system.
3. Providing overdose prevention, recognition, and response education to drug users and their neighbors, friends, and families is a harm reduction intervention that saves lives.
4. The Naloxone Distribution Project (NDP) is a federally funded “Leave Behind Narcan®” initiative administered by the Department of Health Care Services (DHCS) in California to combat opioid overdose-related deaths through the free distribution of Narcan® to qualifying entities for the purpose of distribution to persons at risk for opioid overdose and those in a position to assist those persons at risk. EMS agencies in California are qualified entities to participate in this program.
5. EMS personnel are encouraged to distribute Narcan® to individuals at risk for opioid overdose, or any person in a position to assist individuals at risk and train these individuals on appropriate Narcan® use.

III. Guidelines:

1. ALS Provider agencies may obtain Narcan® kits, intended for layperson use, for distribution by EMS personnel to opioid overdose at risk individuals through the following mechanisms:
 - a. Obtain the statewide Standing Order for Naloxone
<https://www.cdph.ca.gov/Programs/CCDPHP/DCDIC/SACB/Pages/Naloxone-Standing-Order.aspx>
 - b. NDP by completing and submitting an application to the DHCS to participate in the NDP program (free of charge).
<https://www.dhcs.ca.gov/individuals/Documents/NDP-Application.pdf>
2. Narcan® shall not be distributed to patients or bystanders from the responding ALS unit’s inventory supply.

Subject: Provider
Leave Behind Narcan® Program

Associated Polices:

3. ALS personnel may distribute Narcan®, after performing a patient assessment, to individuals who are at risk for opioid overdose or to persons in a position to assist the individual at risk if the at-risk individual meets any ONE of the following criteria:
 - a. The individual was treated by EMS for an opioid overdose with naloxone or supportive care.
 - b. The individual's history or physical exam demonstrates evidence of illicit opioid use (history of intravenous drug use, track marks, needles present, etc.)
 - c. The individual's history or physical exam demonstrates prescription opioid use (prescribed or recreational)
 - d. The physical environment has opioids or drug paraphernalia present.
4. Distribution of Narcan® to opioid at risk individuals must occur in accordance with the following procedures:
 - a. Distribution Process
 - i. Assess and confirm the individual receiving the Narcan® has decision making capacity.
 - ii. Offer leave behind Narcan® to the patient, and/or family.
 - iii. If the individual agrees to receive Narcan®, perform just-in-time training on correct use to the patient and family/supporting persons, if present
 - iv. Document Narcan® distribution in the ePCR (distributed "leave behind Narcan® should be described in narrative and accounted for as a medication administered in the ePCR, distinct from therapeutically administered Narcan®).
 - b. Training
 - i. Perform training for the individual receiving Narcan® including:
 - Recognizing signs and symptoms of overdose
 - Calling 9-1-1
 - Narcan® administration
 - Rescue breathing
 - Post-overdose care
 - ii. Recommend that the trained individual can complete further training online at <https://www.getNarcan®now.org/#home>
 - c. Disposition
 - i. All patients treated for opioid overdose should be managed in accordance with NCEMS treatment Policy # 6524.
 - ii. Patients who decline transport against medical advice should still be offered "Leave Behind Narcan®"

Leave Behind Narcan® Program

Associated Polices:

- d. End of Shift
 - i. Re-stock Narcan® kits
 - ii. Submit Narcan® distribution log per provider agency procedures and in accordance with NDP requirements if participating in the NDP program.
https://www.dhcs.ca.gov/individuals/Pages/Naloxone_Distribution_Project.aspx
 - iii. Report Narcan® distribution to NCEMS Agency quarterly via QIP agency reports.
